

Eighty-five carloads of sheep were shipped from the Williams, Colusa county, stock yards during the last week, the sheep going to the eastern markets. The lambs of Colusa were shipped in excellent condition.

The best known authorities in the United States on co-operative marketing will speak before the American Institute of Co-operation, which meets on the Pacific Coast for the first time this summer. Sessions will begin in Los Angeles and end with a two-weeks' session on the campus of the University of California at Berkeley.

One-third of all existing refrigerator cars in the United States, some 40,000, will be used to move the California perishable fruit and vegetable crop. This is according to an estimate a few days ago by E. J. Hanson, assistant freight traffic manager of the Union Pacific Railroad. Hanson, who just arrived in Los Angeles from Omaha, said citrus prices would be generally higher this year.

A report on crops made by the state and federal agricultural statisticians is as follows: Almonds, 74 per cent of normal as against 62 per cent last year. Crop expected to exceed 1927 production. Apricots, March rainstorm developed damage in some areas. Condition 55 per cent of normal; 60 per cent a year ago. Cherries, condition of 90 per cent of normal; May 1 promises only fair yield. Production, however, expected to exceed unusually light crop of 1927. Oranges, May 1 reports show heavy flowering, indicating good crop for coming season.

Whether or not Aladdin had anything to do with the transportation of Orange county within a few years from a desert waste to an agricultural paradise, he will be a much feted guest at the eighth annual California Valencia Orange show, to be staged at Anaheim from May 24 to June 3. The decorations for the 1923 Valencia show will be carried out in a manner and on a scale that would make Aladdin feel right at home, it is announced by the decorations committee. There will be beautifully fitted oriental palaces, exquisite courts in which fountains play and birds sing, and exotic gardens forming a veritable riot of color.

Fruit beverages such as orange and grape juice, have found a friend in Washington, D. C. The California Vineyardists' Association a few days ago received word from Otis B. Johnson, secretary of the Federal Trade Commission, that imitation fruit juices, when bottled, must be labeled as imitation in bold type. Officials of the vineyardists' association state that this ruling will make it possible for California grape growers to enter grape juice in the competitive market with the imitation product with hope of success. Because of competition of cheap imitation grape juice there has been a decrease in the output of the real California product since 1922.

Farmers in Sacramento, Sonoma, Lake and Napa counties were in happy frame of mind following a victory a few days ago in "fighting" the Pacific Telephone and Telegraph and Northern California Telephone Companies. The victory came after several hours of bitter wrangling between the California Farm Bureau Federation, representing farmer-owned telephone lines in the four counties, and the two larger companies. Hearing was held before California Railroad Commissioner William J. Carr. The farmers contended the two companies are refusing to co-operate with them and are demanding exorbitant rates for "foreign exchange" service. Specifically, the farmers asked that two companies be restrained from raising their "foreign service rates from \$5 to \$7.50 per annum.

Rice planting is well under way at Biggs, Butte county, the water having been turned into many of the plots. The crop in California will be about 40,000 bags less than it was last year, says Frank Thomas, rice buyer of Biggs. It is expected that about 125,000 bags of rice will be produced in California in 1928 as compared with 165,000 produced in 1927. Glenn county will have approximately the same acreage, as will also Butte. Colusa county will be a little less. The main decreases will be noted in the San Joaquin Valley.

Golden State News of Interest to All

"Bigger and better" automobile plates for California in 1929, probably orange numbers on a black background, were decided upon by Frank G. Snook, chief of the state division of motor vehicles.

California will have a state fire prevention and suppression force of fifty men in the field by June 1 and most of the rangers and other forestry officials are already on duty. State Forester M. B. Pratt announced a few days ago.

Death has claimed Kern county's oldest native born resident, an Indian woman whose span of life there has passed the century mark. She was born in the canyon. The Indian woman's exact age is unknown, but her nephew, Chief Juan Lozada, says she was well over 100 years and that many believed her to be 127 years of age. Although she was the mother of several children, Mrs. Mendez survived all of them.

Journalism, the language of newspapermen, is invading the public schools. Not only will California's new series of language books employ cartoons suggestive of comic strips to enliven the pages, but the text matter itself will have a distinct newspaper flavor. There will be "lead" paragraphs such as are used in newspaper stories. Blackface type will be generously employed.

California's state department of public health a few days ago indulged in "baby talk" and there were 84,334 babies to talk about. That many brand new infants came into California homes during the last year, approximately 20 to every 1,000 persons in the state population. The baby total showed an increase of 1,962 over that of 1926. And, more than that, the infant mortality rate for the year was kept down to 62.5 per 1,000 live births, the lowest in the history of California, according to the department's official vital statistics made public.

The present forty-mile speed limit on California highways as enforced by the state division of motor vehicles will be continued despite the ruling by a Fresno justice that fifty miles an hour is legal under certain conditions. This is the attitude of Frank G. Snook, chief of the state motor vehicles department. The interpretation the Fresno justice places on the motor vehicle act does not cause the whole superstructure of speed legislation to tumble down, Snook says. Furthermore, he does not believe that the Fresno decision is of sufficient consequence to be appealed to a higher court.

Plans for a \$40,000,000 initiative bond act to build the Westside highway through the San Joaquin Valley, ultimately providing a new San Francisco-Los Angeles connection, were disclosed last week before Governor Young. And Governor Young said that he "seriously doubted" whether the people of California will favor return to the bond issue method of financing road building. The proposed highway, as explained by W. R. McKay of Hanford, state crime commission member, and other backers of the plan would be approximately 400 miles long, extending between Tracy and Fillmore.

Dan Cupid took a punch right on the "button" from California's gin marriage law last year, marriages dropping off by 3,177 during 1927. This is shown by official figures announced by the state department of public health. Last year's marriage total was actually running ahead of 1926 until the law requiring a three-day declaration of marriage became effective, on July 29th. But during the closing five months of the year Cupid's couplings showed a decrease of approximately 5,000. For the year, marriages totaled 53,487 for a rate of 12.6 per thousand of population, against 56,664 marriages and a rate of 13.7 in 1926. There were 19,719 weddings in the state during the last five months of the year, as compared with 24,671 during the same period of 1926.

San Francisco not only "knows how" educationally, but she has the dollars to back up her knowledge. The bay city has a greater wealth per pupil in the elementary and high schools than any other population center in California. Los Angeles county is the richest in the state, but statistical distribution of wealth on a per capita basis among public school children places San Francisco far ahead of either the Los Angeles area or the East Bay district. The state department of education recently announced "true wealth per pupil" in the three big counties as follows: elementary schools—San Francisco, \$34,412.53; Los Angeles, \$30,207.30; Alameda, \$19,140.87. High schools—San Francisco, \$124,969.99; Los Angeles, \$96,539.09; Alameda, \$55,907.98.

SCOUT EXECUTIVE GIVES POINTERS

A pleasing feature of the Kiwanis program Tuesday was the vocal solos of Stephen Merrill accompanied by his father, Dr. Merrill, at the piano. Clarinet solos were given by Byron Bollinger and Kermit Van Every with Gladys Nelson at the piano were also much enjoyed. A. M. Mortenson, Scout executive of this district, gave a very interesting and instructive talk on this big national movement. The Boy Scouts were adopted from the British and brought to the United States by Theodore Roosevelt in 1910 and the organization has grown to include over 7,000,000 boys and 127,000 men giving their time without compensation except the good work well done.

There are about 800 paid officials. This council includes Santa Clara, Santa Cruz, San Benito and Monterey counties.

This trains boys for the great outdoors in a way that boys enjoy, on a boy's plan. There are now over 3,000,000 citizens in this country who have had Scout training. From a check-up at San Quentin it was learned that not one had ever been a Boy Scout.

At the close of this talk, Geo. Burrow, chairman of the day, made an appeal for the benefit of the local Scout troops that are being sponsored by the Campbell Kiwanis Club. In a few minutes ninety nine dollars were raised to help the summer camp movement in these troops.

Next Tuesday a closed business meeting will be held following the luncheon. Hal Morton will be chairman.

GRANGE ENJOYS TALK ON EUROPE

Miss Helen Buck gave two instrumental selections on the piano at the opening exercises of the grange Tuesday evening which were highly appreciated.

Prof. Shreve of San Jose High School gave a very interesting and instructive talk on his recent visit to Europe.

His experiences in and comments on Belgium, Germany, Italy and other countries gave a clear view of the conditions in those countries, which seem on the whole to be rapidly recovering from the awful devastations of the war. His address was listened to with close attention of the audience and was highly appreciated. Miss Annette Merrill sang two songs which showed her to be one of Campbells coming singers. She was accompanied on the piano by Dr. Merrill.

Crops and prices of fruits and orchard management were discussed by H. G. Keesling, Stanley Smith and others.

The next grange meeting will be June 12.

ON VACATION TRIP

Mr. and Mrs. R. G. Archibald left Tuesday afternoon for a six weeks' excursion and sightseeing trip. Going to Seattle they will go by boat to Vancouver for a few days and thence over the Canadian route to Halifax. They will visit relatives at Glenholme, Nova Scotia and vicinity going then to Boston, New York and Washington. Returning to Philadelphia in June, they will be in attendance at the American Institute of Banking convention, after which they expect to start home to arrive June 30.

D. A. Yeager, local rural carrier begins his vacation this weekend and will return to his duties June 6. Most of his vacation will be spent on the sands of Monterey Bay acquiring a coat of tan and a few spots of sunburn.

HOME TOWN DATA GIVEN AT CLUB

"Our Town" furnished the subject for one of the liveliest meetings the Country Woman's Club has enjoyed this year. As Mrs. E. R. Kennedy was unable to preside, Mrs. Price acted as chairman and in her own unique way gave a number of reminiscences.

Chorus singing of "The Campbells Are Coming," with Mrs. Robson at the piano, started the program off with a vim.

Mrs. R. W. Kennedy spoke of the early days of Campbell, when there was one grocery store, a blacksmith shop and a small dryer. The postoffice was in Benjamin Campbell's house and there was a grammar school, with one teacher, when Mr. and Mrs. Kennedy came in 1890, there was no electricity, gas streetcar or bus.

A short history of the schools was given by Mrs. E. R. Smith. She stated that at the time the high school project was started here there were but 30 high schools in the entire State. Col. Cooper, who went to Santa Cruz to brush up on school laws. The high school was opened in 1900 with 25 students and one teacher, Miss Wood. The husband of the writer, who used the pen name of "Pansy," a friend of Prof. Smith's, delivered the first commencement address to one graduate. Up to date there have been 532 graduates and 25 per cent of them have gone on to higher educational institutions.

Mrs. Chas. Sutter, who was born about a mile from the town told of the time when the town site was one big grain field and surrounding country was a cattle grazing land. She also told of the excitement when the railroad went through.

Mrs. Blaine spoke of the location of the old Campbell house and how, when the road was opened it went around the house and of many changes that had been made. Mrs. E. R. Kennedy said the house in which they lived was the only one not changed since the early days. She spoke of the friendliness of the people during the growth of the village.

Many interesting incidents were related by Mrs. L. F. Shaw of how her brothers started the first dryer; named the people who lived about here, when they came, of the organization of the library and of the first Old Settlers day. Mrs. Blaine mentioned the class in elocution that Mrs. Shaw formed and how much it was enjoyed.

Other incidents of the early days were told and a number of pictures displayed, one of them of the grain field already mentioned. Mrs. Bertha Jones Lopez of Modesto a former member of the club, who was present, gave interesting recollections of the school life. She mentioned some of the improvements made at Modesto and considered that the greatest present need of Campbell was a swimming pool.

Other suggestions of improvements in the town were discussed. Beautifying of the park, free telephone service to San Jose, the proposed sewerage system and so forth.

Mrs. L. S. Miller spoke of the business aspects and in line with her remarks mentioned the man who came here in early days to put out trees, but decided to go to the mountains where land seemed to be better. Very often the "other town" only "seems better, when in reality home is the better place.

The annual picnic will be held June 4, at the home of Mrs. J. C. Ainsley. Members will meet at the library at 10:30 where cars will take all who wish. Bring sandwiches and one table dish and dishes. Program committee will furnish coffee, cream and sugar.

Mrs. D. H. Cramer, the incoming president requests the members to come to the picnic with ideas for next year's program. Members are always at liberty

GOLDEN ANNIVERSARY CELEBRATED

Last Wednesday afternoon Mr. and Mrs. W. H. Woodbury held a reception for their friends, the occasion being their golden wedding anniversary.

May 16, 1878, Anna Sutherland and William Woodbury plighted their troth at Victor, Clinton Co. Michigan.

Sixteen years ago, they came to Campbell and have made their home during those years on the place where they are now living.

The rooms were prettily decorated with yellow flowers, and dainty refreshments were served in the dining room. Mrs. T. M. Marshall of St. Louis, Mo., and Miss Mary Woodbury of the Oakland schools were home for the happy occasion and were assisted in receiving and serving by Miss Jessie Lewis and Mrs. C. E. Hanger.

A number of telegrams, letters, cards, and gifts from friends and relatives added pleasure to the day.

About seventy-five people called to extend congratulations, among them, Mr. and Mrs. Port Davis and Mrs. Foote, of San Rafael, friends and neighbors when the families were all living in Michigan.

CHORAL SOCIETY IN FINAL CONCERT

The Choral Society furnished several musical numbers at the night school exhibit last evening and held its final rehearsal of the year. Under the efficient direction of Mr. Benjamin Edwards, the society has passed a most profitable and enjoyable season and it was with a great deal of regret that the society learned that Mr. Edwards would not be here next season.

The final performance of the combined chorus of Campbell and Los Gatos Choral Societies will be heard at Los Gatos high school auditorium, Sunday afternoon at three o'clock.

The program is as follows:

Welcome
As Sinks Beneath the Ocean.
Beautiful Saviour.
Special Selection
Hymn to Music
Brown Bird Singing
May Time
Greetings to Spring
Special Selection
Hallelujah
Today there is Ringing
Praise to the Lord.
R. H. Hyde went to San Francisco on business Wednesday.

TO TOUR EUROPE

Miss Elizabeth Thomas of the high school faculty will leave on June 18 for an extended tour of Europe. Visiting the scenic points in the United States she will go to Toronto and Montreal and sail to Glasgow. She will visit Scotland, England, Holland, Belgium, Germany, Switzerland, Italy, Spain and France. In Germany she will motor through the Black Forest and through the Alps in Switzerland.

John Keesma returned from a week at Yosemite reporting that by all the fishermen in the valley only two or three trout were hooked.

to bring house guests to the meetings, or anyone whom they think would be interested as a prospective member.

Viewed by more than 500,000 people, Santa Clara County's third annual Fiesta de Las Rosas grand floral parade held in San Jose during the past week-end proved to be the most gorgeous and magnificent spectacle ever held in the history of the county, if not the entire state.

As 138 units of the parade moved gracefully down the historic Alameda, the plaudits of the thousands of visitors packed on the curbs repaid those workers that had spent many hours in making their entries most beautiful.

Campbell was well represented in the long procession and received much applause and commendation.

The 40-piece high school band in its new white uniforms and bright red sashes made a very striking display and were the recipients of much praise. They were followed by the high school float a beautiful piece of art made and decorated at the school. This won first prize banner and a silver trophy in its class.

The Sea scouts under the immediate supervision of Eugene Grattan had entered the new scout boat recently completed by them. With sail up and prettily decorated the boat "floated" down the Alameda towed by the troop of "husky seadogs." This won second prize and silver cup in the junior service club class. Campbell is justly proud of its attractive representation and the recognition of its merits by the judges.

Morgan Hill, winning third prize in the city division, again demonstrated to everyone that it could produce one of the very best and most attractive floats in the entire line.

Governor C. C. Young and family, Mayor James Rolph, Jr. of San Francisco, Mayor R. E. Conley of Sacramento, Mayor Henry L. Davie of Oakland, and Mayor M. B. Driver of Berkeley were all elaborate in their praise of the parade.

Twenty-four bands and drum corps, evenly divided throughout the entire four miles of parade line-up, furnished the colorful pageant with more than enough music and spirit.

The Fiesta Flower Show conducted by the Santa Clara County Flower Lovers Club under the chairmanship of Mrs. Fremont Older, again attracted thousands of visitors and resulted in more than 300 individual competitors for the 38 prizes. It was held in the Men's Gymnasium of the State Teachers College.

"The Piper," the outdoor pageant play produced by Miss Virginia Sanderson and participated in by 250 State Teachers College students, proved to be one of the stellar attractions of the festival and received hearty support from everyone.

The motion picture of the parade will be distributed throughout the world and Santa Clara County will doubtless receive the finest favorable advertising in its history.

EXACTO PUMP PLACED

Haliwell and Jones, Campbell auto service team, are at top notch hitters when it comes to battling home runs on new ideas. Their latest hit and the first of its kind in the county is the installation of a new Exacto Bowsers pump to supply their patrons with gasoline.

This pump is supplied by air pressure forced into the supply tank and is equipped with a liquid meter. A dial shows the reading of the meter absolute "Exacto." The boys have installed this unit to enable them to more quickly and accurately serve their big string of patrons.

Quotations from Hall of Fame

Be great in act, as you have been thought.—Suit the ac-
tion to the word, the word to the action—**Shakespeare.**

Money will buy a mighty good dog, but it won't buy the
wag of its tail. —**Miss Anne Keil.**

What is the trouble with America? It is not that we
have not enough money; it is that we do not know what
to do with it. —**A. Edwin Keigwin.**

War will cease only when the individual realizes that it
is economic suicide. That time is near, I believe.

—**Henry Ford.**

Virtue is not left to stand alone. He who practices it
will have neighbors. —**Confucius.**

The trouble is that we consider happiness as some goal
to be gained, but happiness lies in the progress toward the
goal, not the gaining of it. —**Dr. Frank Crane.**

Trouble and perplexity drive us to prayer, and prayer
driveth away trouble and perplexity. —**Melancthon.**

Revelation

Not in the sacramental wine,
Nor in the bread, is the divine;
Nor in the table of the Lord
Is found the Ever Living Word:
Nor church, nor chalice, priest or place
Makes us to see God face to face;
Within, without, below, above,
Love only answereth to love.

The House of God is everywhere
Love dwelleth in unselfish care.
And everywhere are they ordained
Through whom the common good is gained.
Beyond the wisdom of the creeds
Is service of the common needs,
And God and man are always one,
Wherever honest work is done.

They only know the truth, who know
How daily in the truth to go;
They only are the pure who find
Their purity in being kind.
And theirs the revelation is,
Beyond all codes and prophecies,
Who face the future without fear,
And live the everlasting here.

—**Robert Whitaker, in Unity.**

A Tribute to California

When President Wilson, then Governor of
New Jersey, visited California in 1911, he came
over the southern route to Los Angeles. Ad-
dressing a Pasadena audience he said: "I am
much disappointed when I see you. I expected
to find a highly individualized people, char-
acters developed by struggle and mutual
effort; but I find you the same people we
have at home" and more to that effect. Sub-
sequently, Governor Wilson delivered an ad-
dress at the Greek Theatre, Berkeley, before
the students of the University of California.
At its close Mr. Maslin mounted the stage, a
copy of the paper containing the account of
the Pasadena speech in his hands, and asked
the Governor if he was correctly reported; to
which he replied in the affirmative.

"Governor," said Mr. Maslin, you came into
the State at the wrong gate!" "Gate, gate,—
what gate?" inquired the Governor.

"You should have come through the Emi-
grant Gap, through which most of the emi-
grants from '49 and on entered the state.
Now, Governor the people you saw at Pase-
dena never suffered the trails of a pioneer's
life, they are not knit together by memories of
mutual struggles and privations. When you
come to the state again, come through Emi-
grant Gap. Let me know when you come and
I will introduce you to a breed of men the
world has never excelled" With the smile with
which millions have since become familiar,
Governor Wilson grasped the hand of the
pioneer and said: "When I come again, as I
feel sure I shall I shall let you know."

We all know that the Yankees and Babe
Ruth are leading the American League, but
who can tell us who are on top in the League
of Nations, which is quite as important.

Herbert Hoover carried California big and
lost Indiana. Who now can say that a prophet
is not without honor save in his own country.

Here is a problem in arithmetic. England
consumed 35,000,000 barrels of beer in 1914
and 21,000,000 barrels in 1927. At this rate
when will England go dry?

Colonel Lindbergh has about as much pri-
vacy these days as a goldfish in a glass jar,
which is the penalty for being famous.

Conservation

TRAINED athletes never
expend their energies too early in the
contest, for strength that is reserved for
the final effort usually wins the race. ~
And the person that conserves his finan-
cial resources is in a better position to
take advantage of opportunities. ~ By
opening a savings account in the Amer-
ican Trust Company and making syste-
matic deposits, anyone can soon acquire a
substantial emergency fund. ~ Four per
cent interest, compounded semi-annu-
ally, is an important aid to the
growth of savings.

Town Tales Tersely Told

Miss Helen Ryan of San Francisco is here visiting and plans to remain for some time.

W. C. Bohnett and H. B. Whitehouse went to Lower Lake yesterday for a breath of fresh water breezes and a smell of fish.

Dr. and Mrs. F. B. Carpenter and Mrs. Mollie Hollowell of San Francisco and Mrs. Grace Meyer of San Mateo were visitors at the Alexander home Sunday.

Brek Reed Stephen Merrill and Eugene Tainter of the Campbell Hi have been selected as Y leaders at Camp Roberts which opens for the summer gathering on June 25. It is quite an honor for Campbell to have three of the leaders selected from its schools.

Mrs. Mary L. Turner of Sacramento arrived Sunday for a visit with her sister, Mrs. H. Baugh. Mrs. Turner is one of the officers of the War Mothers, who are meeting in San Jose this week in conjunction with the State convention of Disabled American Veterans.

Mrs. E. G. Lindberg and Miss Roberta Lindberg who have been motoring thru the northern part of the state were house guests Miss Jessie Lewis.

From here they will continue on their journey home to Pasadena.

Minnesota Picnic

The Minnesota State Society will hold their annual picnic on Saturday, June 2, at Los Gatos City Park. All "Gophers" are cordially invited to attend. There will be an entertaining program. Coffee, cream and ice cream will be supplied by the society.

W. B. Deahart, president.

Mrs. J. H. Eastman, secretary.

May Festival Today

May Festival at the Congregational Church today. Today, opening at 3pm.

Sea Scout Display at 5pm.

6:30 pm. Chicken Supper 65c.

At 8pm. "The Old Peabody Pew" will be presented by members of the women's Guild.

Think of Shadle's for prescriptions.

Think of Shadle's for cameras and developing.

PAINTING EXHIBIT AT BLACK CAT

F. H. Cutting of Campbell has hung an exhibition of California scenes in oil at the Black Cat Tea House, where they will be viewed by Los Gatos for two weeks. The public is invited to see these paintings, many of which were shown at the Stanford Art Gallery and at Pacific Grove.

Cutting does his best work on the California Missions and practically all of the originals of these have been sold and prints or post cards reproduced from them. "Crumbling Walls—Capistrano" and "Old Indian Workshop—Capistrano" are among his best. During last summer Cutting visited many of the important missions finishing eight scenes.

Some of the paintings listed at the Black Cat are: Misty Morning, El Capitan, Montezuma School, The Meadow, Spanish Garden, In the Heart of the Hills, The Arbor, Crescent Bay—LaJolla, Nature's Garden, My Mother's Garden, Winter Day in Yosemite, Under the Arch, The Cross, At Sundown, The Glory of Morning and Sunrise.

Man Struck by Auto

Matt Musladin was found Sunday evening at the roadside on Winchester road in a critical condition. The matter was reported to Watchman Barnes who took the man to the County Hospital for treatment. He had evidently been hit by a passing auto and knocked unconscious.

He was bleeding profusely from a scalp wound. No clue was found as to the hit-runner's identity.

Pupil Recital

The younger pupils of Mrs. Emily Pannell Gard will be heard in recital Monday May 28, at 8 o'clock in the Community Room of the Library. They will be assisted by the M. S. Keesling family orchestra.

The public is invited to attend.

Mr. and Mrs. G. H. Perry, of Cloverdale, Cal. are guests in the home of A. P. Anderson, of Jersey avenue. Mr. Perry is proprietor of The People's Theater at Cloverdale, and was formerly publisher of the "Cloverdale Enterprise."

What'll become of the old woman who was so old fashioned she would tell the truth about her age!

Memorandum books at Smiths.

Golden State News of Interest to All

Degrees and certificates of graduation were granted 2,282 students at the University of California at the sixty-fifth annual commencement exercises held in the Memorial Stadium at Berkeley recently.

June 1 is the date set by the Boeing Air Transport, Inc., on which they will begin operation of new twelve-passenger planes between San Francisco and Sacramento. Three planes will go into service then and twelve more are planned to be put into service as soon as the need for them develops. This announcement was made recently by Maurice M. Smith, of the Boeing traffic department, before the Sacramento Ad Club.

California's total estimated daily average crude oil production increased 600 barrels during the week ended May 12, figures released by the American Petroleum Institute show. The total estimated daily average crude oil production for the week of the report was 622,900 barrels, compared with 622,300 barrels for the week ended May 5.

Stockton will be the next attraction for cruising enthusiasts following the Isleton festival of last week-end. The Stockton Water Carnival will be held May 26 and 27, in celebration of the completion of the valley's victory in its fight for a deep-water channel to the sea. An important feature of the affair will, of course, be races in the various outboard divisions. It is expected that a majority of the boats entered for the Isleton contests will be taken down the San Joaquin for the competition this week.

Hundreds of thousands of dollars have been lost to investors in the state in stock through activities of so-called loan and discount companies, according to the State Corporation Department a few days ago after a six week investigation into activities of such companies which, it is alleged, have been loaning from 50 to 80 cents on the dollar to holders of stocks. There are twenty-seven such concerns under investigation in the state.

Clara Phillips must spend five more years inside prison walls before she is eligible to parole. A formal ruling by Deputy Attorney General Charles A. Wetmore Jr. last week blasted the hammer murderess' hope of leaving San Quentin this year. She had pinned her hopes to the 1927 law fixing new penalties for second degree murder and setting the minimum term for second degree murder at five years. In an effort to apply the provisions of the 1927 law to prisoners convicted prior to that date, the Legislature made the act retroactive. Clara Phillips has served five years of her sentence, and under the new law would be eligible for parole.

More than half the 4,288 population of San Quentin prison is made up of young men below thirty years of age, a survey of statistics shows. There are 2,297, the figures show. Average age of male prisoners is 32 years; that of females 35. In spite of the fact that scores of men have been sent out on parole since January 1, the population has increased by 446 since that date. White prisoners predominate in both male and female sections, with negroes second. There are 3,538 white prisoners, 307 negroes, 56 Chinese, 22 Japanese, 31 Indians, 6 Hawaiians, 23 Filipinos and 13 Hindus.

Proposal for an official California trademark on California-canned and packed products, backed by a State guarantee as to the standard, gained new impetus at Redding last week, when the Sacramento Region Citizens' Council convened. "Under-ripe and over-irrigated fruits are hurting California's markets and reputation," declared Captain John D. Hubbard of Chico. "The State standard would put the parasites out of business."

Methodist Episcopal Church
W. C. Robins, Pastor

Sun-May 27- There are 3 fine reasons why this "Go to Church Sunday" should appeal to every Citizen (1) To set a good example for the Youth of the town.

(2) It is Memorial Sunday and Every one should reverently remember the Past. (3) This Sunday is Pentecost Day-the birthday of the Church- "Go to Church." At 6:30 A. M. the two Churches will unite in a Birthday Celebration- If Overcast in the Methodist Church- if Sunny at Albright's Hill- Meet at Methodist prompt at 6:30 at 11 worship with Sermon by Pastor.

Topic- "The Birthday of Spiritual Religion." All members and friends are urged to attend 7:30 Union Memorial Service at the Congregational Church.

Wed May 30th the official Board is called after prayer Meeting.

The Sunday School and Church picnic is postponed till Sat. June 2nd, at Alum Rock Park- Leave the Church promptly at 9- Be prompt and with a good lunch.

DAIRYMEN CALLED TO DISCUSS INDUSTRY

TO THE DAIRYMEN OF SANTA CLARA COUNTY; AND TO ALL THOSE INTERESTED IN SEEING THE DAIRY INDUSTRY DEVELOPED AND MADE A REAL SOURCE OF INCOME IN OUR COUNTY.

Some time ago the San Jose Realty Board, at the writer's request appointed a committee to make a thorough survey of the dairy and poultry industries in Santa Clara county.

The purpose of such a survey was to determine to just what extent these two industries had been developed, and to what extent each could be developed by the proper organization and with the cooperation of the various chambers of commerce.

In order to fully understand the present status of these two industries, the problems confronting those engaged in them, and the opportunities for developing them in the county, the committee decided that it would be best to hold a series of open meetings, hearings, at which all interested parties would be given an opportunity to present information.

The first meeting will be held for the dairy industry. Later on others will be held for those interested in poultry.

NEXT MONDAY, MAY 28, 1 O'CLOCK P.M., ALL WHO ARE INTERESTED IN THE DAIRY INDUSTRY ARE REQUESTED TO MEET WITH THIS COMMITTEE AT THE SAN JOSE CHAMBER

These two industries produce an annual revenue of approximately \$5,000,000 in Santa Clara county, and this without any co-operation from those not engaged in the industries.

Let us see if we can't put our shoulders to the wheel and make these two industries sources of real income for our county.

This committee is giving time and thought to this subject and is deserving of the wholehearted co-operation of every citizen of the county, whether or not he is engaged in the poultry or in the dairy industry.

Make it a point to telephone every dairyman you know to be present at this meeting. Invite all who you believe to be interested, then be sure and come yourself.

Sincerely yours,
Will Ellis Miller, Manager,
SAN JOSE CHAMBER
OF COMMERCE.

The statewide co-operative fight of Californians to secure federal money for adequately financing forest experimental work as a basis of conserving and developing the forests, one of California's greatest natural resources, has been won with the passage of the McNary-McSweeney forestry research bill in the House of Representatives. The passage of this bill by the House of Representatives marks the close of the legislative cycle of the bill, and the President's signature is definitely assured, due to the fact that he clear-listed the bill before it was passed by the Senate and House committees and the Senate. This forestry research bill gives to California the sum of \$190,000 of federal money annually for the work of the California Forest Experiment Station.

Campbell Congregation Church
Rev. J. H. Bennett, Pastor

Next Sunday at 11am., Preacher, Rev. J. H. Bennett; Subject, "The Depths and Shallows." All members of the Young Peoples Societies are invited to ask questions either on the Sermon or any other subject, at the evening meeting at 6:30pm.

TRAVELERS' ASSURANCE

MODERN travelers demand the comforts and conveniences to which they are accustomed. Travelers' assurance is an important function of the telephone—especially the rapid, convenient and economical telephone service now available to nearby and distant points.

The telephone way is an easy way to take the trouble out of travel—for making advance arrangements and hotel reservations—keeping in touch with the folks at home—making social and business appointments. And in emergencies, the traveler is only as far from help as the nearest telephone.

The general reliance placed upon the telephone by modern and experienced travelers is in itself assurance that—

To know is to telephone.
To telephone is to know

THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY

President Coolidge's approval of the flood control bill last week means a saving of approximately \$23,000,000 to northern California land owners, according to a statement issued by Stephens W. Downey, attorney for the state reclamation board. Levies and other works of the Sacramento valley flood control projects involve a total cost of \$51,000,000, toward which, up to this time, Downey said the federal and state governments have been contributing approximately 10 per cent each, the other 80 per cent remaining a charge against the land owners. The California provisions of the new federal flood control bill were sponsored by Congressman Charles F. Curry of Sacramento along the lines of the California debris commission report of 1925, and pledge the federal government, Downey said, to one-third participation in the \$51,000,000 cost.

Views and Data on the Hecker Highway

Pictured above is Supervisor Henry Hecker, who has worked hard for the completion of the road which bears his name. Also is shown a road map informing motorists the direction to the new road. Below is a scene near the summit.

The completing link of one of the most important highways of Central California will be officially dedicated Sunday afternoon at 1:30 on May 27, 1928.

This new road will be the final link in the Yosemite-to-the-Sea road and will be known as the Hecker highway. This broad boulevard con-

nects Gilroy and Watsonville over the Coast Range mountains making it possible for the motorist to leave Yosemite valley in the high Sierra and within six hours be at the sea shore of the historic Monterey bay.

The road is wide, the curves are gradual and the ascent and descent of the Santa Cruz mountains is so

easy that the motorist hardly appreciates any grade, and one sees constantly unfolding vistas of beauty of forest, of deep fern-filled canyons, of rushing noisy brooks, of shady dells and sunlit valleys. From the summit one can see, looking to the west, a most beautiful and panoramic view.

BIDS WANTED

Bids will be received by the Trustees of the Campbell Union Grammar School, at the School House on June 13th, 1928 at 8:00 o'clock P. M. for the purchase of two Buss Bodies to be placed on Reo Chassis, specifications for which are on file in the office of the Principal at the school.

The Board reserve the right to reject any or all bids.

By order of the Board of Trustees of the Campbell Union Grammar School.
Signed: S. N. HEDEGARD,
Clerk.

Dated: May 21, 1928.

Cooking with a modern Electric Range

Above is a picture of a woman cooking with an Electric Range.

How absurd, you say. But not so at all. Her Electric Range with its automatic time and temperature controls is doing the cooking automatically, while she is away from the kitchen.

The dinner placed in the cold oven at one o'clock starts to cook at four. The temperature control keeps the oven heat just right. The current will turn off at six. All this is done electrically, while she is playing cards, motoring or shopping.

Would you like to have the meals cooked while you're away? Over thirty thousand California women let the Electric Range do this for them. Our representative will gladly tell you about the modern electrical way of cooking.

New rates make electric cooking very economical

The combined dairy payroll in Tulare for the month totaled \$267,823.42, a slight decrease of the previous month. It was announced when local dairymen received their cream checks recently. Decrease in prices accounted for the drop in the payroll.

California wheat is 86 per cent of normal as compared with a ten-year average of 84 per cent, and the 1928 crop will run approximately 15,106,000 bushels, an increase of over 13,642,000 last year, it was estimated recently by state and federal agricultural statisticians. Barley and oats are 90 and 93 per cent of normal, respectively. Size of crops will depend on weather conditions during the next few weeks.

Santa Rosa High School's stock judging team was announced as the winner of the state-wide contest held at the local Union Stockyards at Los Angeles under supervision of the state board of education vocational department. Salinas High School won second place and Woodland High third. Grossmont High School, San Diego county, placed first in the poultry judging contest.

Results of experiments in cross-breeding Rambouillet ewes to mutton type rams at the University of California Farm at Davis showed that the Shropshire and Southdown crosses excelled in value, bettering the lambs obtained by crossing Hampshire, Suffolk, Romney and Rambouillet strains. However, the Hampshire and Suffolk types led in number of twins.

T. D. Watson has commenced the planting of twenty acres of peppers on his ranch at Wheatland, Yuba county, west of Wheatland. The plants, which are planted and watered by machine, are set out in low bottom land, which is ideal for flourishing growth. Harvest of the peppers commences in September and the picking extends into November. The crop is used exclusively for seed; the seed being extracted by machine in the field. Watson and other growers in the district are planting a large acreage to water-melons, the soil being especially adaptable to melons, which have been sold during the past few years in the markets throughout the valley under the label of Bear River melons.

The first car of California cantaloupes was selling in New York market the first week of this month at a wide range of prices and a top of \$14 for jumbo 45s. Range of standard 45s was \$9 to \$12. The season is somewhat earlier in that section, shipments having started a week or ten days sooner. Shipments were expected to reach a volume of fifty carloads daily from May 15 to May 20, with the time of heaviest shipments probably in the third or fourth week of June. The state crop reporting service estimated 24,708 acres of cantaloupes, compared with 31,383 in 1927. Accordingly, shipments were expected to be somewhat lighter this season, even with continued fairly good crop conditions.

The annual census of the black scale population of citrus groves in Los Angeles county is now being carried on by the district inspectors of the Los Angeles County Horticultural Commissioner's office. All commercial orchards are being graded according to the amount of black scale present. The data thus obtained will be used to determine the condition of black scale infestations in orchards generally as compared to the degree of infestation during the adult period a year ago. A yearly check is in this manner kept on the improvement or deterioration in conditions. Results obtained from the use of various insecticides, used on acreages great enough to give good representative figures, are shown in the final compilation of grades.

Preparations are being made in all counties where puncture vine exists for the 1928 control campaign says W. C. Jacobsen, chief, bureau plant quarantine and pest control. Results obtained in previous campaigns, he states, have been very satisfactory to those in charge of the control program. Early activity in the control operations will facilitate the elimination of this pest. Several counties have already outlined their spraying plans and machines have been ordered to take care of the season's weed program.

ORDER TO SHOW CAUSE

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SANTA CLARA.

In the Matter of the Application of CLANCY AND CULLEN, INC., a corporation, to change its corporate name.

Clancy and Cullen, Inc., a corporation having filed herein its verified application praying for an order of this Court authorizing it to change its corporate name to Clancy and Semas, Inc., and good cause appearing therefore,

It is ordered that Friday, the 29th day of June, 1928, at 10 o'clock A. M. of that day, or as soon thereafter as counsel can be heard, at the Court Room of said Court, in Department 3 thereof, in the Court House in the City of San Jose, County of Santa Clara, State of California is hereby set and fixed by me as the time and place for the hearing of said petition, when and where any or all persons interested in said matter are ordered to appear and show cause, if any they have, why said application should not be granted, and it is further ordered that a copy of this Order be printed in the Campbell Press, a newspaper of general circulation published in said County at least once a week for four consecutive weeks before the hearing of said petition.

P. F. GOSBEY,
Judge of said Superior Court.

ROBLEY E. MORGAN,
Attorney for Petitioner.
